I help foreigners and companies get things done in Thailand where a translation mistake costs money: negotiations, banks, police, hospitals, immigration. I don't just translate words — I know how Thai institutions work, what you will be asked and how to answer so you're understood correctly.

Selected projects

Mar 2026

Russian Export Center business mission "Smart Cities in Thailand"

InterContinental Bangkok • Made in Russia

Thai ⇄ Russian interpreting at B2B negotiations between around 20 Russian IT companies and Thai partners over two days. Selected by the organizers based on my CV; asked to recommend an event coordinator.

2025–2026

Weltrade — international company, repeat client

Bangkok

Negotiations during the handover from the Thai manager, office meetings, a corporate event with the Thai team, and the company's presence at an industry expo at ICONSIAM.

2026

Unfreezing bank accounts for clients from China

SCB, KBank • provincial and cyber police

Meetings with officers, source-of-funds explanations, bank–police coordination. An account frozen for two years was released — the client regained access to about 5M ฿.

2026

Dental hospital → a client for the whole summer

Bangkok

Interpreting the consultation and treatment plan, liaising with the clinic on visits and deposit. After the first visit — regular interpreting at meetings all summer.
